EXPERTISE

Electro Mechanical Assemblies

Military class electrical panels from EMC-protected customized electrical panels to mass-produced electrical panels.

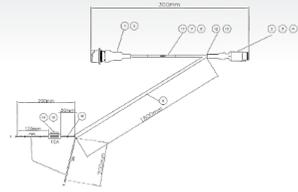

Cables and Wire Harnesses

Cables and wire harnesses for demanding operating conditions in accordance with the customer specifications.

Prototype Manufacturing

In the course of prototype manufacture, we utilise our extensive experience to achieve the exact optimal solution required by the customer.

Designing

In the design, we take advantage of the extensive experience acquired with numerous projects implemented in co-operation with the customer.

Material Kits

Customer can purchase tailored material kits for their own production. All materials are packed according to Bill of Material (BOM) including markings.

Military Quick Stock

Military Quick Stock is online- store where you can buy material with fast delivery time and without minimum order quantities. quickstock.milectria.com

QUALITY

Our ISO 9001:2015 certified quality system ensures our capability to fulfill the customer requirements in demanding branch of industry.

Our production is done according to IPC/WHMA-A-620D (Requirements and Acceptance for Cable and Wire Harness Assemblies) requirements.

We supply all our products electrically tested. An electrical testing environment can be built for efficient and high-quality verification of the functionality of mass-produced electrical panels.

We also put high emphasis on environmental issues and our personnel well being. These are guided by ISO 14001:2015 and ISO 45001:2018.

TRACEABILITY AND CONFIGURATION MANAGEMENT

We utilize bar-code based documentation throughout the manufacturing process.

Each work stage and the person carrying it out, plus the tools, raw materials and components used can be identified afterwards via our ERP system.

Configuration management is handled systematically in our ERP system.
